Shashank Khochikar

Mobile Application Developer · Product Engineer & Mentor

Flutter and Android product engineer: take client ideas from problem through design, build, API integration, test, and release. Mentor developers and consult on architecture and delivery; use AI tools in day-to-day work. Products in healthcare, hospitality, HRMS, insurance, and multi-flavor apps.

WORK EXPERIENCE

OnPoint Software Services

Product Engineer & Mobile Application Developer — **Oct 2020 – Sep 2026**

- Team Leader for mobile products: API-driven delivery, mentoring, code reviews, and client estimates.
- Own Flutter and native Android delivery for production apps used on Play Store and App Store.

Vishwanet Computers

Mobile App Developer — **Dec 2019 – Sep 2020**

- Built and shipped cross-platform mobile apps with REST APIs, working with design and backend.

VizippIndia (Edbrix)

Mobile Developer (Android / iOS) — **Sep 2017 – Sep 2019**

- Education and enterprise apps, including video communication modules and performance work.

ClickIt & Vishwanet

Android Developer — **Nov 2015 – Aug 2017**

- Native Android (Java / Android SDK) for client business apps: shipping and maintenance.
